

Call for Papers

The academicians, scientists, engineers, industria professionals and researchers from all over the world are invited to participate in **RoMat 2020** by their unpublished and original work.

All abstracts will be refereed and a criterion of rejection will be lack of originality. Successfully submitted abstracts will be acknowledged with an electronic receipt. A condition of submission is that if accepted one of the authors will present at the conference.

Intending author should submit an abstract of no more than 150 words. The abstracts will be published in the conference program. Each presenting author can submit one abstracts, but can be co-authors for an unlimited number of abstracts.

All abstracts will be submitted to the secretary of each section (mentioned in main topics).

All accepted full papers will be published by the “**The Scientific Bulletin**” **Series B Chemistry and Materials Science**, edited by University POLITEHNICA of Bucharest, an ISI indexed journal(https://www.scientificbulletin.upb.ro/SeriaB - Chimie_si_Stiinta_Materialelor.php?page=indexare).

Also, the Scientific Committee will select representative papers to be published in some special issues for ISI indexed journals like **Materials**, **Journal of Adhesion Science and Technology**, **Materiale Plastice**, **BioMed Research International**, **Nanomaterials**. For these special issues, extra fees will be applied according the journal rules.

Invitation

Dear Colleagues,

We have the pleasure to invite you to the **8th International Conference on Materials Science and Technologies – RoMat 2020** which will be held in **Bucharest (Romania)** from **November 26th to November 27th, 2020**.

The conference continues the tradition of successful conferences organized every two years by the Faculty Materials Science and Engineering from University Politehnica of Bucharest with the support of national and international scientific community on materials science and engineering. The conference will include plenary keynotes and invited lectures, as well as oral and poster presentations. Keynotes and invited plenary speakers from all over the world will present their latest research into the field. The participants will have the opportunity to follow the latest technological developments and related academic research as well as novel designs and products that will be presented by the companies.

RoMAT 2020 is an opportunity for the worldwide materials science and engineering community to share their recent achievements and to provide a forum for academic scientists and industrial researchers to meet and exchange valuable experiences, even in this complex situation generated by the pandemic.

We look forward to meet you all in online for a fruitful conference!

Sincerely,

Iulian ANTONIAC

ROMAT 2020 Conference President
